

SIGNING IN TO ING BUSINESS ON ANOTHER COMPUTER

SIGN-IN METHOD: CERTIFICATE

Use this manual, if:

- You are a user of ING Business; and
- You will sign in to the system using the method based on a certificate saved on eToken or cryptographic card; and
- You have an eToken/cryptographic card; and
- You want to sign in to the system on a new/another computer

STEP 1

Check whether the new/another computer on which you want to sign in to the system complies with all technical requirements necessary to support the system. [Read more >](#)

STEP 2

Download SmartCard ToolBox ING drivers on the computer on which you will sign in to the system. Use the manual [SmartCard ToolBox ING software installation](#).

STEP 3

Plug the eToken / cryptographic card into a USB port. Check if the certificate is visible in the SmartCard Toolbox ING application and register it. Use the manual [Certificate registration – I cannot see my certificate when signing in](#).

STEP 4

Sign in to the system on www.ingbusiness.pl. Use the manual [Signing in to ING Business](#).

Should you have any questions, please call **ING Business Centre: 32 357 00 24 or 801 242 242** or send e-mail to: bc@ingbank.pl. Our consultants are at your service on working days from Monday to Friday, **8:00 a.m. to 6:00 p.m.**
